PRODUCT INFORMATION:

Brilliant Brand 120V SMD-5050 LED Strip Lights consist of bright and durable LEDs encased in high quality PVC casing and is most often used to provide directional accent lighting for living spaces, commercial buildings, or landscaping. 120V strip lights give you the ability to create custom accent lighting projects at home, and can also be used in virtually any lighting application due to their extreme versatility.

BENEFITS:

Durability - 120V strip lights are known for their strength and flexibility. SMD LED chips will last longer, hold up in cold weather, and be less prone to failure.

Brightness - 5050 SMD LEDs are a high brightness chip - roughly 3x brighter than LED 3528 strip lights.

Custom Lighting Effects - There are many different lighting effects that can be achieved with 120V LED strip light. LEDs are highly versatile through use of controllers which allow you to dim, fade, and flash.
