Achieve the look of traditional glass neon with extremely flexible, inexpensive, custom cuttable, SMD Neon LED Rope Lights. A combination of emerging SMD LED technology along with innovative opaque PVC tubing gives neon LED lights the ability to mimic the uniformity and brightness of light produced by traditional glass neon at a fraction of the price. SMD LED Neon Rope Lights can be used for indoor or outdoor applications and are the perfect choice to give your restaurant or business the attention it deserves with the cleanest, brightest, most uniform and vibrant Neon LED Rope Lights available.

If you are looking for LED grow lights Brilliant Brand red and blue LED lights are manufactured with specific spectra to achieve peak absorption ranges and to set wavelengths at optimal values to maximize plant growth efficiency.

With LED grow lights you will have huge cost savings on energy consumption as they use 60% less energy to produce similar or higher light output.

LED grow lights also eliminate the need for a light cooling system as LEDs reduce heat and stay cool to the touch. Since Brilliant Brand grow lights have the capability to remain relatively cool, they can last for over 50,000 hours.

Enhance your retail store, casino, night club, or business with the latest in LED linear lighting – LED Neon strip lights! Incorporating new and advanced LED technologies into the perfect flexible linear lighting solution, 120V Neon strip light's small size and high degree of flexibility along with its near indestructible design allows you to use it in the most demanding of locations. SMD LED Neon strip lights emulate traditional glass neon but at a fraction of the cost by saving you 80% of the energy costs, and LED lighting technology allows these lights to stay cool to the touch and to last 50,000 hours or more.
